

RISC-V Class Project Phase 10 – Project Final Report

Phase 10 of the Class Project is a Final Report on the RISC-V Project. The file to be submitted for this phase MUST be named to standardname10.docx (or submitted as standardname10.pdf). Each section of the report is described below.

1. Project Summary

In 1 paragraph describe what you accomplished in the Class Project. This should be written as if you were going to give it to a job interviewer, and should NOT be a Phase-by-Phase description of the project.

2. Challenges

Describe at least three elements of the project which were challenging, why they were difficult and what you did to overcome the challenges.

3. Takeaways

Describe the three (or more) most significant things you learned in this project.

4. Suggested Improvements (Optional)

Describe any suggestions you have which would make the Class Project a better learning experience.

5. Scoring the Report

The report will be scored on a scale of 0 to 100 based on the completeness and conciseness of the answers. The report is due on the final day of the semester. There is no bonus for early submission.

6. Submitting the Report

The project should be submitted into canvas. It can be either a Word document or a PDF file.
